

THURSDAY, OCT. 18, 1882.

THE DAY'S DOINGS.

MORNING.

Kohler's waxworks, 10 a.m. to 10 p.m.
Sale of stores &c. of the Niagara on steamer wharf by E. P. Adams, at 11 o'clock.

AFTERNOON.

Bible class Kindergarten, 3 o'clock

EVENING.

Y.M.C.A. Bethel Vestry, 7:30.

The Planters' Labor & Supply Co. held a further meeting yesterday, to which for the first time reporters were admitted.

The minutes of the previous meeting were read and agreed to, and reports of committees were called for. None were forthcoming, and the Chairman called on Mr. H. M. Whitney to read the paper he had prepared on the subject of Reciprocity.

Mr. Whitney, having explained that, owing to various circumstances he had not had the fullest access to documents, &c., necessary for the fullest treatment of the subject, then read one of the ablest papers on the subject that it has been our fortune to come across. The following brief outlines will indicate to our readers the purport of it: Although the results of the Treaty have been pecuniarily speaking more beneficial to Hawaii than to the United States, that is not to be wondered at considering the immense difference in population; still the United States has reaped diplomatic advantages of great value. The population of Hawaii has increased from little over 50,000 before the Treaty to about 75,000 at the end of 1882, and perhaps will reach 1,000,00.

Not much attack was made on the Treaty till the Autumn of 1881, when several newspapers combined and published statements of cruelty which were almost wholly without foundation, and generally made by parties actuated by feelings of revenge.

These charges of slavery are utterly false and without foundation. (applause). The origin of the indenture system was traced to the shipment of natives in whaling vessels, and the length of contract and amount of work performed monthly, (26 days of 9 hours each) alluded to. Fully one-fourth of the laborers in the islands are engaged by the month only, and more than half have renewed their contracts which shows whether the system is good or not. Labor laws here are modelled on those of New York State, and if anything better than there. Many of the laborers have plots of land and deposit accounts with their employers, and on the whole the condition of laborers is as good here as in any country in the world. All difficulties between laborer and employer are settled by law, and the higher Judiciary here are renowned for their character and ability, but most of the trouble may be traced to the inferior character of the native magistrates, and under the new law we shall probably have worse ones than the old, (applause). Then followed statistics of the number of plantations, amount of crop, &c. (The estimated crop for this year is 56,000 tons). The author concluded with an eloquent appeal to the United States' Government to maintain the Treaty.

A hearty vote of thanks was tendered to Mr. Whitney, and the report was referred to the Trustees. (Probably 5,000 copies will be printed and circulated in America and elsewhere.) The report of the Committee on labor was circulated and a short discussion followed. The meeting was adjourned at 12 m. to 2 p.m.

STREET cleaning seems to be carried out now systematically. Our repeated protests are bearing fruit.

Mr. KOHLER'S Farewell Benefit Concert given him by the Alaska Minstrel on Saturday evening next. Reserved seats J. W. Robertson and Hart Bros.

Kauai Items.

(By Our Special Reporter.)

The plantations will commence grinding shortly. The Kekaha plantation will be ready about the first of November. The Eleale has made a final shipment of 2,000 bags and will start in two weeks. The Koloa plantation will start about the same time, and Lihue and Hanamaulu about a week later. Kapaa and Kealia are setting new boilers and repairing and will not be ready to start for a month. The Kilaua plantation will be ready the first week in November, and the Princeville a month later. At Princeville they are now very busy planting on the low lands.

The Chinese rice-planters have been so prosperous that several of them have gone down to Honolulu to have a good time—one of them raised at least 2,000 tons this year.

The whole amount of cane planted is larger than in any former year, and large crop are expected everywhere; on the Kekaha, Eleale, Koloa, Lihue, Hanamaulu, Makee Sugar Co., Kealia and Princeville plantations, the cane looks extremely well. The Princeville plantation will take off this coming year the largest crop since its foundation in 1861.

The roads are in rather a miserable condition at present. The bridges are rotten and in many cases unsafe. Nothing has been done yet by the new Supervisor, owing to want of money and his immediate predecessor didn't attend to the wants of the district. His Ex. Mr. Bush is expected to visit Waiaina and Hanalei rivers, to personally inspect and decide on the most suitable sites for bridges to be built.

Correct After All.

On the 8th of September a four-masted vessel was reported from the outer station as passing the port, a couple of hours after Messrs. J. W. Robertson & Co. announced on their blackboard that it was the ship "Euphrates," from New Castle, bound to San Francisco. The next morning the daily papers had the following items. The DAILY BULLETIN of Sept. 9th, says:

"Messrs. J. W. Robertson & Co. report that the four-masted vessel which passed the port yesterday, was the British ship 'Euphrates,' Capt. Cameron, 37 days from New Castle, N.S.W., bound to San Francisco, with a cargo of 3,610 tons of coal."

The Daily Advertiser of Sept. 9th, says:

"A large four-masted vessel, from the south, passed this port yesterday. She was reported by special telegram as the Euphrates, 37 days from New Castle, N.S.W., bound to San Francisco. By carrier pigeon, however, we find that her number was not made out correctly. The report should have been the Non-Such, Captain Shave-the-Wind, 24 hours from New Castle, bound to Tom Tiddler's ground, with a full cargo of copper-bottomed post-holes. All well on board."

In a S. F. paper of Oct. 4th, by yesterday's mail, the arrival of the ship "Euphrates," Capt. Cameron, is reported at that port 64 days from New Castle. In his memoranda the Captain reports as having sighted the Island of Hawaii on Sept. 6th, and on the 8th passed Honolulu, distant 14 miles.

Messrs. J. W. Robertson & Co.'s shipping reports are pretty reliable.

We hold over much interesting matter.

A COMMITTEE of 9 will wait on His Majesty this morning and lay the views of the Planters before him.

It is the intention of the Executive Committee to make His Majesty's coming birthday a memorable occasion. They have decided on having 2 four-races, 3 six-oar races, 1 barge-oar, 1 double scull, 1 single-scull, 1 canoe, and 2 sailing races, besides swimming and tub races. Altogether they have arranged to distribute about \$1,400 in prizes, of which about half has been already subscribed.

A DECISION has been arrived at in the U. S. District Court, San Francisco, by Judge Field, that Chinese merchants from places other than China can come to San Francisco without hindrance. A test case has been made in the matter of Low Yum Chow, who came to San Francisco from Panama, and the above decision was rendered by the Judge. We quote the following ending of

the decision:—"We are of opinion that the section requiring a certificate for Chinese merchants coming to the United States, does not apply to those who resided out of China on the passage of the Act of Congress, and that proof of their occupation may be made by parole."

Mr. C. E. Williams sent a native man with dump cart out on Punch-bowl street. On the start home yesterday, the horse was frightened by a dog and cat running under its heels, while the man was employed putting up the bars of the inclosure. It ran away and the man jumped on the cart and seized the reins. Somehow he slipped and fell between the wheel and the cart, and was dragged a little way, bruising his legs badly. The horse ran along Beretania street, down Richard street and turning the corner of Hotel street tipped the cart up and itself over. Here two men who were painting the Hotel fence came up and secured it. A white man then came along and proceeded to take the horse and cart to its owner, but in a little while he too was thrown out, and we hear he was badly hurt. The horse then ran along to Mr. C. E. Williams' yard. Luckily, although many carriages were in its road it ran into none of them. The cart and harness are injured, but the horse is all right.

Auction Sales by E. P. Adams

Thursday, October 19th.
